

CYCLING & PEDESTRIAN SAFETY TASK FORCE

The State Government has asked Sir Eric Neal, Chair of the Road Safety Advisory Council (RSAC), to establish the ***Cycling and Pedestrian Safety Task Force*** to ensure a focus on the safety of all road users.

The Task Force reports to a sub committee of the RSAC, which was established in 2002 to monitor road safety performance in South Australia and make recommendations to the State Government in a bid to reduce road trauma.

The Task Force is comprised of peak cycling and walking groups and relevant state and local government representatives. The role of the Task Force is to monitor and evaluate interstate and overseas research and initiatives and recommend strategies for addressing safety issues as they relate to cyclists and pedestrians in South Australia.
